

Rule Text - Top-down BACT:

17.8.748 NEW OR MODIFIED EMITTING UNITS-PERMIT APPLICATION REQUIREMENTS (1) through (3)(d) remain the same.

(4) An application for a Montana air quality permit must include the following:

OPTION 1:

(a) a BACT analysis conducted pursuant to The Montana Top-Down Best Available Control Technology (BACT) Analysis Process and Procedures Manual, 2003 edition.

OPTION 2:

a) for applicants subject to the requirements under ARM Title 17, chapter 8, subchapter 12, a BACT analysis conducted pursuant to The Montana Top-Down Best Available Control Technology (BACT) Analysis Process and Procedures Manual, 2003 edition.

OPTION 3:

a) For applicants subject to the requirements under ARM Title 17, chapter 8, subchapter(s) 8, 9, and/or 10, a BACT analysis conducted pursuant to The Montana Top-Down Best Available Control Technology (BACT) Analysis Process and Procedures Manual, 2003 edition.

(a) through (l) remain the same but are renumbered (b) through (m).
